Condition at Noon Is More  
Encouraging.

PATIENT WORRIES OVER IN-  
ABILITY TO CONTINUE CASE.

Clue to Whereabouts of the Assassin  
Brought to the Authorities at Noon  
—Gendarmes Ordered to Concentrate  
at Fouillard, North of Rennes, and  
Search Mi Foret, the Largest  
Woods in That Vicinity—Intended  
Victim May Be Able to Resume His  
Duties in Ten Days.

Rennes, Aug. 15.—[Special]—The clue to the whereabouts of Labori's assassin was brought to the authorities at noon. Gendarmes were ordered to concentrate at Fouillard, north of Rennes, and search Mi Foret, the largest woods in that vicinity.

Labori passed a very bad night and

M. LABORI  
slept but little. His condition at noon, however, is most encouraging.

The patient has no fever and no complications are apparent.

All efforts to find the bullet have failed. A Roentgen ex-ray apparatus has been ordered from Paris.

Labori worries greatly over his inability to continue his case before the court-martial. The weather here is scorching hot.

Assailant Still at Large.

Up to a late hour, the assailant has not been captured. Various clues have been reported but are indefinite and in the rough country hereabouts the chance of the man's final escape are excellent.

A corroboration of the statement that a pocket of Labori's coat was rifled as he lay on the ground has been obtained.

An attempt was also made to steal important papers in connection with the court-martial.

Labori, however, retained enough presence of mind to prevent this.

Another Forgery in Dossier

Paris, Aug. 15.—[Special]—The Matin says today that Labori, who is doubtful of his own recovery, and wishing to aid in the Dreyfus case to the last, has announced that Champion, the custodian of the secret documents, is aware that still another forgery is in the dossier.

Will Soon Resume Duties

Paris, Aug. 15.—[Special]—The Gen-Jois says that if no complications set in, Labori will be able to resume his duties in ten days.

Late this afternoon Labori's condition is unchanged. Physicians are much encouraged by the absence of fever and are hopeful of his final recovery.

A Serious Manifestation

Paris, Aug. 15.—[Special]—A manifestation of a serious character in front of the office of the anti-Dreyfus paper, L'alibre Parole.

Many on both sides got mixed up and several were injured

GEN. MERCIER ESCAPES EASILY.

Court-Martial Proceedings Feel the Absence of M. Labori.

Rennes, France, Aug. 15.—The shooting of M. Labori, leading counsel for Capt. Alfred Dreyfus, robbed the morning session of the Dreyfus court-martial of its paramount interest. The murderer apparently chose Monday for the attempt because it was anticipated that M. Labori would crush Gen. Mercier, the former minister of war, with his cross-questioning.

When the court-martial was resumed Gen. Mercier was confronted with M. Casimir-Perier, the former president of France.

The latter declared that Mercier's story, told on the witness-stand Saturday, of the imminence of war between Germany and France in 1894 was grossly exaggerated, and complained of the action of the then minister of war (Mercier) in moving 60,000 troops to the frontier without consulting him.

As it was M. Labori's task to take Gen. Mercier in hand and M. Demange, associate counsel, was quite unprepared for the task, the few questions the latter put were practically of little

effect, Gen. Mercier escaping cheaply.

After MM. Cavaignac and Hanotaux, former minister of foreign affairs, had testified the court adjourned until Wednesday.

During a short suspension of the sitting of the court, M. Jaures, the socialist leader, who was in court, remarked that the arrests made in Paris had for their sole object to forestall a St. Bartholomew massacre of the Dreyfusards, and that the attempted murder of M. Labori at Rennes was one of the scattered acts of the projected massacre.

Dreyfus must undoubtedly have been profoundly moved by the attack on his champion, who for all he knew might be dead or dying, but he maintained the same immovability as hitherto, and did not give in court the slightest indications of his emotions.

The depositions of Gen. Zurlinden and Chanolne and M. Hanotaux were listened to closely, but the session was utterly devoid of any exciting incident, the mass of testimony being directed against Dreyfus, and the lack of trenchant criticism, owing to the absence of the defense's right arm, naturally left an impression unfavorable to the prisoner.

Gen. Mercier was acclaimed on leaving the court, and M. Casimir-Perier was greeted with cheers and counter-cheers for the army.

The gendarmes dispersed the most noisy of the demonstrators, but there was no serious disorder.

Gen. Mercier was acclaimed on leaving the court, and M. Casimir-Perier was greeted with cheers and counter-cheers for the army.

The gendarmes dispersed the most noisy of the demonstrators, but there was no serious disorder.

Telephone messages were to be sent to different points where members of the League of Patriots were assembled. They were to rush to the republican and socialist newspaper offices, seize their staffs and hold them prisoners.

Simultaneously rushes were to be made on the palace of the Elysee and the ministries of the interior and posts and telegraphs, when news would have been wired to the provinces that Paris had revolted. A war minister nominated by the duke of Orleans was to replace Gen. de Gallifet.

Two days previous to the intended execution of the plot M. Lepine, prefect of police, received full information regarding it. The conspirators are now under arrest, and ought to be tried for treason by the senate, sitting as a high court.

Paris Papers Talk of Civil War.

Paris, Aug. 15.—The Paris papers express indignation at the outrage of which M. Labori is the victim. The Temps deposes the "state of disorder into which the Dreyfus affair has dragged the country," and says it is "high time for us to stand up and be ourselves again."

The Libre Parole, which attacks the government, says: "Today we have only assassins. Tomorrow it will be civil war."

# AN AWFUL DEATH AT MONROE

An Aged Farmer Impaled on a Barb Wire Fence

Martin Sullivan, aged 88, a farmer who has made his home in Green county near Monroe, for nearly sixty years, died Sunday morning as the result of an accident. He was out in the field where the men were working Friday afternoon, and when he saw the big storm coming up he started for home, taking his path through a corn patch, at the edge of which is a barbed wire fence. This he attempted to climb and slipped and fell, catching his right leg back of the knee on one of the sharp barbs of a top wire. He went over head downward. This happened about 2 o'clock and there he hung twenty hours before he was found. Every search has been made for him by the family and neighbors since he was missing Friday afternoon. His face and hands were badly discolored and he regained consciousness and lived until 8 o'clock Sunday morning. He had suffered internal hemorrhage. For some years he had been very feeble and when he was found his circulation was about gone. He had hung on the fence all through the storm and all night and was chilled through.

The family is very well known and for years lived on the farm three miles south of Monroe. A wife, 76 years of age, and six children survive him. The couple celebrated their golden wedding last fall.

OFFICERS GIVING THE PAIR A  
LIVELY CHASE.

Michigan Couple Purchased a Team at Oconto—Married in the State Historical Rooms at Madison—Burglars at La Crosse Got \$1,100—State News.

Oconto, Wis., Aug. 15.—The officers are on the trail of the eloping couple from Kenton, Mich. Detectives Tinker and Scott of Detroit, are working on the case and in company with local officers are scouring the country. The woman is the wife of a wealthy lumberman whose estate is said to be worth over \$250,000, and who is having her pursued with the object in view of gaining her signature to papers which will release him for providing for her out of his immense property. The man with whom she eloped was named Martin and was formerly a stable boy in the employ of the family. When the couple left home they had with them about \$30,000 in cash which was the personal fortune of the woman. They were in Oconto for several days last week and purchased a team with the intention of making a trip through the farming districts, but upon hearing of the arrival of the officers upon the scene they left in the middle of the night and drove to Green Bay where they sold their team and proceeded by rail, first to Appleton and then to Fond du Lac, where all traces of them for a time was lost. Later the officers were informed by the detectives that they had doubled on the trail and returned to this vicinity.

Some fishermen who resides at Pensaukee reports having harbored them over night and it is thought they are hiding in some of the smaller villages in the county and that they can be apprehended within the next twenty-four hours. The young woman is quite handsome, being about 27 or 28 years old, and possesses all the characteristic traits of refinement. The stable boy with whom she eloped is a young man several years her junior, and were it not for the apparent roughness of his breeding could be described as handsome.

Manila, Aug. 15.—[Special]—The United States cable ship Hooker which arrived here recently, has been ashore on Corregidor island for several days.

Manila, Aug. 15.—A force of United States troops from Quingua, four miles northeast of Malolos, and from Balibay, near Bustos, about six miles northeast of Quingua, encountered a body of insurgents, estimated at about 500, half way between Bustos and Quingua. In the engagement that ensued the Filipinos were severely punished and scattered. The Americans lost one man killed.

The insurgent force is believed to have been under the command of Gen. Pio del Pilar, and to have had in view the tearing up of the railway at Bocaue and Bigaa, about three miles northeast of Bulacan.

A battalion of the Twenty-first Infantry will be sent to those points to strengthen the railroad guard and to reconquer the country in the direction of Norzagaray and on the Bustos road.

HAVE A SURPLUS OF TROOPS.

Ten New Regiments Are Now Filled to the Maximum.

Washington, Aug. 15.—The recruiting for the ten new regiments has reached the maximum, but the work continues and may not cease until as many more regiments are organized. The full strength of a regiment is 1,309 enlisted men. There are ten regiments of infantry forming in this country and two of infantry and one of cavalry in the Philippines. Gen. Otis expects to have about 500 men for each of these regiments, the remainder, or about 2,500 recruits, to be furnished from this country.

The thirteen volunteer regiments now provided for will require 17,017 of the 35,000 volunteers authorized by law. It is admitted in official circles that the recruiting of volunteers will be continued, but no one in authority will estimate the number that will be enlisted.

When all the re-enforcements have reached the Philippines the American forces will number about 50,000 men. The percentage of losses to the effective strength of such an army, through death from wounds and sickness and incapacity from disease and wounds, will average about 1,000 a month during an energetic campaign.

The latest reports received by the adjutant-general show that at the close of recruiting Sunday there was a surplus of 120 men after the ten volunteer regiments had been filled.

Ambrose and Peter.

### EMERALD GROVE VISITED BY STORM

Albion Hay's Barn Struck By Lightning  
and Destroyed.

Emerald Grove, Aug. 5.—A terrific  
wind and hail storm did much damage  
in this vicinity Friday. Albion Hay's  
barn was struck by lightning and  
burned. The home of Tom Clark's was  
also struck but no serious damage  
resulted. Mrs. Butler and Nettie are  
preparing to move to Janesville in the  
near future. Ed Addy of North  
Dakota, is visiting friends about here.  
Mrs. Agnes Davis and sons of Chicago,  
are visiting at John McArthur's. Harry  
VanGelder, of Shopiere, was a caller  
here Saturday. Mr. VanGelder will  
move to the E. Inman farm in the fall.  
S. Locke and Adin spent  
Saturday at Delavan Lake.  
Mrs. Lou Gentile of Whitewater, visited  
at her mother's, last week. Jimmie, Ha-  
zel and Claude returned home with their  
mother, after spending several days with  
relatives. Arthur McArthur, Jr., has

over Sunday. Rev. Dennis exchanged  
pulpits with Rev. McClelland of Milton,  
last Sunday. Mrs. Nina King and Jen-  
nie McArthur, spent Thursday and Fri-  
day in Whitewater and Lima. Agnes  
Moe has been engaged to teach the  
Smithton school.

### West Porter

West Porter, Aug. 15.—West Porter  
luckily escaped Friday's storm, which  
did considerable damage north and east  
of here. Mrs. Evan Davis, and old resi-  
dent of the town of Union, died Wed-  
nesday, Aug. 9, of stomach trouble.  
The funeral services were held at her  
late home in the town of Union, Friday,  
Aug. 11, at 2 p. m. She leaves four  
sons and one daughter to mourn her  
loss. Charles Lowery was seen on our  
streets Sunday on his wheel. Miss  
Mary Jane Earl has a new wheel.  
Lightning killed a cow belonging to  
Hans Oleson on the Bronsill farm.  
Cards are out announcing a dance in  
Porter Band hall, August 25. All who  
can, expect to go and see the Ringling  
show August 17, at Janesville.  
Josie Earl of Janesville, was  
seen on our streets, Sunday, looking  
hale and hearty. Law study must  
agree with him. The Porter's seventh  
annual picnic, held near Bragg's cream-  
ery in the town of Dunkirk, was well at-

tended. Attorney L. E. Gettle, of Edg-  
erton, delivered the address. The Ful-  
ton quartette and others furnished the  
vocal music. The Porter cornet band  
rendered some good music to enliven  
the games which lasted until nearly sun-  
set. Everybody wants to thresh and it  
makes it lively for the threshers. Those  
who tried self feeders on their machines  
have had to take them off, as they were  
not satisfactory. Oats are of good  
quality, but not as large a yield as was  
expected. Tobacco that was out of the  
Friday's storm is doing nicely and a  
good many acres will be shedded this  
week and all will be in good condition.  
Come, boys, and get all the gopher and  
woodchuck hides you can for the first  
prize at the Evansville fair.

### WILL LECTURE AT FOOTVILLE

Elder Chris Yeuell to Speak of His  
Work in the South.

Footville, Aug. 15.—On Saturday  
night at the church of the Disciples of  
Christ, Elder Chris Yeuell of Alabama,  
will deliver his popular lecture "On the  
Summits of the Sunny South." A silver  
offering will be taken for the support of  
the mission work in which Mr. Yeuell is  
engaged in the south. Dr. George F.  
Hall, the noted author and lecturer re-  
sponds: "Give Brother Yeuell a hearing.  
He is a good man and rarely talented. I  
have heard his lecture and pronounce  
it a delightful address. Full of facts,  
fancy and fun. Thoroughly missionary  
in tone and delivered with fire." The  
meetings which Mr. Yeuell has been  
conducting during the past two  
weeks have been well attended and much  
good has been done; on Sunday there  
were two confessions and crowded con-  
gregations.

### Fulton.

Fulton, Aug. 15.—Miss Nellie Pease  
and Misses Edith and Lou Raymond are  
attending the teachers' institute at  
Janesville. Those of the farmers whose  
crops of tobacco were not injured by hail,  
have reason to be thankful. Corn is  
growing very tall and rank. A sample  
stalk, taken from Mr. Dodge's field,  
measured twelve feet five inches, and it  
is only one of many. Eph. Sayre and  
family are rejoicing over the advent of a  
baby boy in their home. The boys  
choir were entertained with ice cream  
and cake, at the home of H. W. Lee, last  
Friday evening. The Mitchell concert  
band, consisting of father and six  
daughters, gave an entertainment at  
Stewart's hall, recently. The orchestra  
playing was good; the youngest player  
was only four years old. Will Lee has  
improved his buggy with a coat of paint.  
Next Wednesday the Sunday school pic-  
nic is to be held at Becker's bridge.  
Everyone come, and have a good time.  
The parsonage, occupied by Mr. Peach,  
has been much improved by removing  
the fence from the front and side yard.  
Miss Nina Wallin of Hastings, and Miss  
Bessie Boorman of New York, are spend-  
ing the summer at Mr. Wallin's. The  
Old Settlers' picnic was well attended by  
the Fulton people, and the Fulton male  
quartette was one of the musical attrac-  
tions. Mrs. Elsworth Green and chil-  
dren are visiting her parents at Evans-  
ville, and her sister at Madison. The  
Fulton Improvement club will meet one  
week from Wednesday night, at Mr.  
Reeser's. Everyone is invited. Bentley  
& Schofield are busy building tobacco  
sheds, and repairing those blown down  
by the wind, last June. Mrs. Taylor is  
visiting her sisters, Mrs. Green and Mrs.  
Schofield.

### Shopiere

Shopiere, Aug. 15.—Mrs. Sarah A.  
Buck passed away at her home here, on  
Tuesday, August 8, aged seventy nine  
years. She leaves a husband and eight  
children. She was born in 1820; was  
married January 1, 1844, and in 1856  
moved to Wisconsin from Moravia, New  
York. The funeral services were held at  
the house Thursday, August 10, Rev. P.  
C. Richardson officiating. The pall  
bearers were W. T. Wheeler, G. H.  
Burnham, J. Shimeall, B. H. Smith, E.  
P. Bostwick, and C. W. Starks. Byron  
Buck and family will soon leave for  
Chicago. Frank Allyn and his  
cousin, Effa Gordon, will leave for  
their home in Kansas, this week.  
S. K. Sweet lost a valuable cow last  
week. There will not be much cider  
made this fall, judging from the looks  
of the apple trees. Mrs. Julia Smith  
and daughter visited at James Hag-  
gart's, Saturday. The ladies of the Con-  
gregational church society will hold  
their next social at Mrs. Jerome Shim-  
eall's, Wednesday evening, Aug. 18. A  
cordial invitation is extended to all.  
Shurtleff's ice cream will be served. The  
hail storm Friday did not reach this  
place. The ball game between Beloit  
and Shopiere was 13 to 15 in favor of  
Shopiere.

### Harmony.

Six Corners, Aug. 15.—Jesse Howard  
returned from Dakota Saturday night.  
He has spent five months in South Da-  
kota and northern Iowa, and says he  
was well pleased with the country near  
Canton, S. D. W. R. Cleland will as-  
sume the management of Geo. R.  
Fetherston's mill and elevator at Mil-  
ton, October 1st. Rev. O. W. Dennis  
of Emerald Grove, made friends of this  
place, a call the first of the week. Mr.  
and Mrs. C. A. Rice were in White-  
water over Sunday. The hail storm of  
Friday afternoon did considerable dam-  
age to corn and tobacco here. Some  
pieces of the latter crop are entirely  
worthless. The accompanying rain was  
very acceptable and fell without wind.

## LAST EVENING IN THE SOCIAL WORLD

A. W. BAUMANN ENTERTAINS  
AT CONCORDIA HALL.

Arrives at the Fiftieth Milestone of  
His Earthly Pilgrimage—Charles  
W. Schwartz Surprised by Odd  
Fellows—Mrs. Catherine Alden Cel-  
brates Her Eighty-Eighth Birthday

That A. W. Baumann is a royal enter-  
tainer and affable host was again dem-  
onstrated last evening, when a large  
party of his friends were royally enter-  
tained at Concordia hall. The occasion  
for this gathering, which will linger  
long in the memory of those present,  
was his arrival at the fiftieth milestone  
of his earthly pilgrimage.

Concordia hall was never the scene of  
a more enjoyable gathering than that of  
last evening. In the neighborhood of  
two hundred ladies and gentlemen were  
present and every moment was enjoyed  
to the fullest extent.

During the evening the members of  
the Concordia society presented the  
host with a handsome easy chair. The  
presentation speech was made in Ger-  
man by G. C. Fritz. His remarks were  
listened to in rapt attention and received  
a liberal applause. Mr. Baumann respond-  
ed in a few well chosen words, thanking  
his guests for the kind remembrance.

As Mr. Baumann has been a member  
of the fire department for many years,  
the other members did not fail to show  
their esteem and as a token of such, pre-  
sented their host with a beautiful stein.  
Chief Engineer John C. Spencer made  
the presentation speech in an able man-  
ner. Later in the evening Mr. Baumann  
was presented with another stein by a  
number of his close and intimate friends.  
This time Charles Horn represented the  
donors in the presentation.

The musical renditions during the  
evening added much to the pleasure.  
The Concordia Singing society rendered  
a number of choice selections. George  
L. Hatch sang by request "Just as the  
Sun Went Down" and in response to a  
hearty encore, sang "She was Bred in  
Old Kentucky."

A supper fit for a king was served  
in a manner that reflected credit  
upon those in charge. The tables  
were set three times, sixty being  
seated each time.

Following the supper, dancing was  
the order of the evening and was con-  
tinued until the early hours of the morn-  
ing. Smith's orchestra furnished the  
inspiration, which was excellent, as  
usual.

Mr. Baumann was kept busy receiv-  
ing hearty congratulations from those  
present, who will always remember the  
affair as a most delightful one. The  
host is a native of Germany and for  
thirty-three years has made his home  
in this city and has won the respect and  
confidence of all who know him, each of  
whom trust that he is not half through  
living.

### Mr. Schwartz Taken Unaware

Charles W. Schwartz was a very  
surprised man last evening. On arriv-  
ing at his home, 202 Locust street, be-  
tween 10 and 11 o'clock, he discovered  
that upwards of forty friends had taken  
possession of the same. While the  
guests were uninvited, they were wel-

## JUDGES HER FATHER.

HE MAY  
GO TO  
THE GALLOWS  
ON CHILD'S STORY.

SAW HER  
MOTHER  
MURDERED...

A domestic tragedy in Edwardsville, Pa., which consisted in the murder of a young wife, the arrest on suspicion of the crime of the husband, and the casting on the world of two children promises an equally appalling sequel. Frank Newhart is confronted on his trial on the charge of murder by his 9-year-old daughter, who is the only witness against him, with the exception of her younger sister, who confirms her story. The child's story, which is believed by the authorities, utterly discredits Newhart's own statement, which is sufficiently plausible to have cleared him had there been no contradiction. For years the county has known of no such sensation as the murder of young Mrs. Newhart, and tremendous public sympathy has been aroused for the practically orphaned children. If, as is supposed, Newhart's fate has been decided by the words from his baby's lips, every effort will be made to keep the two little girls from realizing the horror of the situation. In any event, it is likely that they will be adopted or well cared for by those who have shown the most sympathy for them. It is but a few weeks since the cruelty and neglect with which Frank Newhart is said to have made life hateful to his overworked young wife reached their frightful culmination. For nine years Mrs. Newhart, her neighbors say, suffered endless petty tortures which made her an old woman at 25, but did not succeed in crushing out her love for her drunken husband. The secret of her forbearance, they say, is that Newhart when sober was sincerely devoted to her and his children. Unhappily, the occasions when he could be called sober grew fewer and fewer. Newhart was a laborer, and made at the best but small wages, barely enough to keep alive a family of four. In the last year or two most of his paltry earnings went for drink. At home he was brutal and abusive. The children went hungry. The mother lived on, hoping vaguely for relief. One day the neighbors heard a shot fired in the Newharts' tiny cottage. Then a scream. Some one ran for a policeman. When the officers arrived they found Mrs. Newhart's dead body, her husband suffering from a severe wound in his side, and the two children hidden away, too frightened to cry for help. Newhart forced the men to listen to his explanation: "My wife tried to kill me," he said. "I could not defend myself, so I struggled with her to wrench the revolver from her hand. She had the strength of a mad woman and resisted me. The revolver was discharged as we fought and killed her. I am helpless, you see, from the bullet she sent through me." The policemen relented. There was no reason why the man's story should not be true. Nevertheless, he must be put under arrest until a hearing could be held. Sullenly, Newhart submitted, reiterating his story.

A day or two ago the hearing was held before "Squire" Williams, the leading judge of the district. The neighborhood had been canvassed meanwhile for possible witnesses of the conflict between Newhart and his wife. None could be found. There were plenty of gossips who were ready to tell what they thought of Frank Newhart and how much they had liked his wife, but of evidence not a scrap. Whichever had been the assailant there had been, it was plain, no deliberation. The murder was due to a sudden passion of hate on the part of one of them. The crime was almost unique in the absence of clues it afforded. The officers of the law were at their wits' ends.

But wise Squire Williams had a plan which he did not confide. When the day of the hearing came he produced Newhart's two little daughters, aged 9 and 7.

MRS. NEWHART. "They are too young to know anything." "They are old enough to tell what they saw," insisted the judge, as he urged the children not to be afraid. So little Mary, 9 years old, her dead mother's namesake, was asked to tell what had happened on the day her mother died. The child began to cry. Newhart was scowling at her. It was plain that she feared her father. The judge compelled the man to turn his

face away, and the child was urged again to tell her story.

She is a pretty child, with a tiny, pointed face, frightened, dark eyes, and a timid little voice. Several of the men who heard her wept as she gave her pitiful testimony. But little Mary grew bolder as she went on.

"Me and Annie," she said, "was playing in the kitchen. Mamma, she was sweeping. Papa came in. He was awful mad. He say bad words to mamma. Mamma she cry and papa he hit her on the head. Annie and me we scared and hide under the table. We afraid papa whip us, too. Papa he keep on saying bad words and then he got into bedroom. Mamma she cry awful.

"Papa come out with shooter and he say to mamma, 'Me shoot you now.' Mamma she awful scared. She cry out, 'Oh, God, Frank, don't kill me.' Frank is papa's name, you know.

"Papa he push her away from him and shoot the shooter. Mamma cry awful loud. She awful hurt. She fell down on floor and blood all come. Papa he didn't care—he just stand right by and shoot shooter twice.

"Mamma she dead, I guess, 'cause she never say anything more. Papa he walked up and down. Me and Annie was so afraid we didn't cry. Then policeman and lot of people shout out in the yard and papa he put shooter up against him, like this, and shoot, and blood come, too, and make his shirt red. Then policemen came and papa fight 'em with club, and then they take him away. Me and

FRANK NEWHART. Annie don't know what to do, we all alone."

After this evidence the squire was not long in committing Newhart to jail without bail.

## MADHOUSE COOKS

Were About to Make a Broth of Their Attendant.

A celebrated Scotch physician tells a story of a madhouse doctor whose presence of mind alone saved his life. "A great friend of mine was for a considerable time the medical superintendent of a lunatic asylum near Glasgow. One day in making his customary rounds he had occasion to visit the patients in the kitchen, who were preparing the dinner. There were seven of them—all big, sturdy fellows, who were believed to be harmless. The keeper only looked in upon them now and again, feeling that his constant presence was unnecessary. The doctor unlocked the iron-barred door of the kitchen and went in among the lunatics. There were five large boilers containing scalding water ready for making the day's dinner for the patients. One of the lunatics pointed at the boilers full of hot water, and, laying his hand upon the doctor's shoulder, said: 'Doctor, you'll make a fine pot of broth, and the words had no sooner been uttered than the other six madmen shouted in a voice of delight: 'Just the thing!' and, seizing the doctor, were in the very act of putting him into one of the large boilers of scalding water, when the doctor had the presence of mind to say, but not a second too soon: 'Capital broth, but it would taste better if I took my clothes off.' The madmen, with a yell of delight, said 'yes,' and the doctor asked them to wait a moment while he went and took his clothes off, but as soon as he got out of the kitchen he turned the key in the door and ordered the keeper to see to the lunatics being put under restraint. The doctor's presence of mind saved him. It is true, from a terrible death, but he died shortly after, raving mad. This experience had destroyed his reason."

Lost His Heart and Her Balance. The loiterers down at one of the beaches the other day were dismayed to see a young woman go tumbling head over heels down a rather long flight of steps—and Jack went tumbling after. In other words, her escort made an effort to catch her that merely resulted in his following her example. But the sad part of it was the way he took the whole disaster. She had made him ridiculous, and he was indignant at her in consequence, and the poor girl found that not only had she bumped her head, but that she had lost his heart when she lost her balance.—New York Evening Sun.

There was, therefore, every prospect of the movement proving successful.

UNIQUE DECORATIONS.

Floral Effects on China Produced With Postage Stamps.

An ingenious young girl of Chicago has produced an exquisitely decorated plate in floral effects by the clever use of postage stamps.

The chief decorations are four clever leaves made of green stamps. The heads are cut out around the first notched edge, allowing the figure two on one stamp to cover the spot where the three heads are joined. The stem is made by clipping the outer edge, which forms the desired curve.

Around the edge of the plate and between the clover leaves are hung rose-

PLATE DECORATED WITH POSTAGE STAMPS. buds, found by carefully cutting the figure "two" from the red stamps and attaching them to the gracefully curved green stem. Forgetmenots are made with blue 1 cent stamps, and the result is indescribably pretty.

The plate is then covered with Démar varnish, which preserves the colors and makes it available for use. By scraping the superfluous paper from the back of the stamps it gives the finished effect of hand painted work.

JENNIE VAN ALLEN.

THE ACTIVITIES OF WOMEN.

Miss Amelle Kussner is an American girl who has achieved a high reputation in Europe, as well as in America, as a miniature painter. Not long ago she went to St. Petersburg to paint a miniature of the Grand Duchess Vladimir and had been there only a few days when she was summoned to the Imperial palace to paint a likeness of the czarina. Before she had finished this the czar ordered a miniature of himself.

Miss Eugenie Uhlrichs is an expert microscopist who is employed in New York by the government to inspect meat for the export trade.

Although it isn't long ago that the telephone was introduced into the Orient, the taciturn Celestials have already become quite as dependent upon it as the busiest American, and the most noteworthy feature of the whole institution is the employment of women not only at the switchboards, but in almost every other capacity connected with the service.

The Countess of Warwick has established in England an agricultural school for girls, which she personally superintends. It is known as the Lady Warwick Hostel. The girls are taught gardening, fruit growing, dairying, bee-keeping, general farming and the supervision of estates. Having learned the theory of plant growing and cultivation, the girls of this novel college don overalls, take pitchfork, hoe or spade and, by toil that is considered man's particular field of exertion, acquire practical knowledge of the science of agriculture.

Unusual honors have come upon Miss Leonora Jackson, a Chicago girl, whose superb violin playing has attracted great attention in Paris, Berlin and London. She recently played before Queen Victoria at Windsor castle, being accompanied by the court orchestra.

Mlle. Mathilde Scrao, the distinguished Italian novelist, is just now the literary lioness of Paris. She may be ranked with George Sand and George

Elliot, as she possesses precisely those qualities as a writer which distinguished her two great predecessors of the same sex.

Miss Glenrose Bell, a fair haired and blue eyed girl, with artistic ideas and imagination, designs table linens for a big Chicago manufactory.

The woman's international congress, recently held in London, may indirectly have an effect on the ministry of Japan. Diplomats are expecting to hear of the resignation of Viscount Aoki, the minister of foreign affairs, whose tenure has been made impossible by the progressive women of Japan. Viscount Aoki incurred their hostility by frowning on the attempted organization of a woman's league in Tokyo, which was to have been represented in the London congress.

Mme. Patti (Baroness Cederstrom) now earns about \$50,000 a year, but has made as much as \$850,000. Melba's income from fully engaged is \$150,000, and Sarah Bernhardt has for years averaged \$70,000. Rosa Bonheur sold one year's work for \$190,000.

Straw hats which have lost their pristine freshness may easily be restored to favor at home without the necessity of a trip to the bleacher. Dissolve 5 cents' worth of oxalic acid in a pint of cold water. Lay the hat upon a flat surface and scrub briskly with an old tooth or nail brush. Rinse well with cold water to remove every bit of the acid, which would otherwise eat the straw, and lay it out in the bright sunlight to dry, taking care to still keep it in a flat position.

TROLLEY CARS IN MARSEILLES

After Fifty Years the State Will Own and Operate the Lines.

From the New York Tribune: Foreign cities have been much slower than those of America to adopt electric traction, but they are now coming to it rapidly. The public conveyances of Marseilles for many years have been omnibuses and horse cars. The latter are now to go, and most of the former will also now disappear, no doubt, at least in streets served by electricity. About two years ago the Compagnie Generale Francaise De Tramways of Paris secured the necessary concession for working the revolution now in progress in Marseilles. Before the close of 1899 it is probable that all the principal thoroughfares of the latter city will have trolley cars in operation. The uniform fare for short and long rides will be 10 centimes, or 2 cents of American money. Hitherto it has been customary to charge 4 cents for rides beyond a certain limit. The concession will expire in 1950. Not only must the company pay the city an annual fee of \$20,000 for the use of the streets, and an additional tax based on receipts after these exceed \$1,400,000 a year, but at the end of fifty years the tracks and appurtenances pass into the hands of the municipality. If during the last five years of the concession it appears that the company is allowing its property to deteriorate, the state reserves the right to seize the company's revenues to maintain the road in good condition. The state will take such rolling stock as it wants from the company in 1950, but is under no obligation to pay for more than it wants. The state may require the holders of the concession to remove the tracks at the end of the fifty years if it is not deemed expedient then to continue the operation of the road.

Thought He Had Her.

At a military bazaar an officer thought he fancied a certain article exposed for sale at one of the stalls, and he was certain he fancied the lady who presided at the stall.

"He remarked, therefore, that he thought that particular article very pretty. The lady said:

"Yes, it is very pretty. My mother sent it."

"Ah, really," pursued the officer, determined to discover the name of the owner of the eyes that had bewitched him—"really, let me see—I think I have met your mother. Her name, I think, is—"

"The Queen of England," answered the lady.

The officer did not wait for the fancied article.

His Trade, Anyhow.

A Canadian river steamer was recently the scene of an amusing blunder. A lady passenger was taken ill in the night, and the steamer did not carry a doctor. The steward rushed to find the list of passengers, and read it through. In it was the name "James Thompson, M. D."

The steward ran to the passenger's berth, and aroused him by vigorous blows at the door.

"What's the matter? Is the boat sinking?" came from within in a startled tone.

"There is a passenger ill, and we want your assistance, doctor," replied the steward.

"What are you playing at?" growled the voice. "I ain't no doctor."

"Why, you have got 'M. D.' after your name."

"Well, I can put them letters after it if I like, can't I?" said the voice within. "That my trade. I'm a mule driver."

Subterranean Lake.

To London, as to almost every large city, the question of a water supply has been a serious problem. Londoners now see a way to solve it. The engineer of the county council has informed that body that underneath London is an immense lake, in a chalk basin 2,500 square miles in extent. The annual rainfall that sinks to this lake, 100 feet below the surface of the ground, amounts to 230,000,000,000 gallons, which would give a daily yield of 767,000,000 gallons. An artesian well has already tapped the lake at Clapham, and it is pointed out that all that is necessary to insure a water supply is to sink a sufficient number of wells. The wonder is that London should have existed for more than 2,000 years and never discovered that the great lake was beneath it.

## GOVERNOR SCOFIELD

## HAS A WORD TO SAY

## REPLY TO CRITICISMS OF THE DRUGGISTS.

The Chief Executive Says They Had Better Read the Law Providing for the Appointment of a State Board—States His Reason for Naming H. C. Schranck.

Governor Scofield in an interview yesterday with a representative of the Milwaukee Journal sets right his position in the appointment of H. C. Schranck as a member of the state board of pharmacy. In reply to the criticisms of the members of the Wisconsin Pharmaceutical Association at their meeting recently held in this city, the governor says:

"Those druggists who are making complaints had better read the law providing for the appointment of members of the state board. They will find that the appointment of Mr. Schranck was perfectly legal and proper. I understood when I appointed Mr. Schranck that I was making a good selection, and I still believe so. Mr. Schranck is a man of high standing, and has been president of the board, I believe, so that I do not see how a just complaint can be made against him."

The Journal further speaking of the governor's visit to the Cream City yesterday has the following to say:

"Gov. Scofield arrived in Milwaukee today from Madison and during the day met quite a number of business and political friends. He is considerably improved in health, the western trip having agreed with him. He is devoting much of his time to his lumber business and is not letting politics worry him."

"Among the political leaders who called on the chief executive was Pension Agent Ed Coe. Mr. Coe imparted the information that Ira B. Bradford, of Augusta, who made the speech in the convention nominating Gov. Scofield, is an active candidate for the nomination for governor." I just got a letter from Mr. Bradford," said Mr. Coe to a Journal representative after talking with the governor. "He is an active candidate for governor, and I guess is going to put up a hard fight." Mr. Bradford had been mentioned, but it had not been known that he is a candidate. The governor said he had nothing to say with reference to the gubernatorial contest.

## LINE CITY MAN ASSAULTED

City Sexton Quackenboss Held Up Saturday Night

The Beloit Daily Free Press of last evening gives the following account of a hold up there Saturday night:

"City Sexton Quackenboss was assaulted and severely injured by three men who evidently intended to rob him Saturday night. He had been down town and about 11 o'clock was walking quietly along Park avenue carrying several packages of fruit and other things he had purchased, and when part way between Emerson and Clay streets, opposite a clump of bushes and trees on one of Miss Douglas' vacant lots, he was suddenly set upon by three men, who knocked him down and pounded him and at the same time diving into his pockets. He had a few dollars in one of his pants pockets and he held his hand onto that and the robbers failed to get it. As soon as he could get command of his voice he yelled for help. This and probably the stir in surrounding houses where the cries were heard caused the highwaymen to flee."

"When they first attacked Mr. Quackenboss a hand was placed over his mouth and another around his neck, nearly strangling him, while one of his assailants knocked his feet from under him, throwing him with such force to the walk, cutting and bruising his face and causing blood to flow profusely, and although Mr. Quackenboss did not realize it at the time one of his ribs was broken by the assault."

"Marshal Appleby was notified of the assault shortly after 12 o'clock and drove at once out to Mr. Quackenboss' residence and learned his story as is here given. He says two of the men were of good size and the third was a smaller person."

"Dr. D. R. Murray and family heard of Mr. Quackenboss' cries for help and assisted him into their house near by and Mr. Murray notified Marshal Appleby."

## RECORD FROM JANESVILLE TO CHICAGO BROKEN.

Engineer A. H. Shekey Makes the Run with Thirteen Cars and a Caboose, in One Hour and Forty-Five Minutes—Distance of Eighty-Nine Miles.

The record from Janesville to Chicago was broken Saturday morning by Engineer A. H. Shekey of the Chicago & Northwestern road, who pulled a stock train of thirteen cars and a caboose from the yards in this city, to the 40th street yards in the Windy City, in one hour and forty five minutes, the distance being eighty-nine miles.

The train started from Minneapolis, and was delayed on the way here, and it was in an endeavor to make up the lost time that the record was broken. The start was made from here at 2:45 a. m. Saturday and the time of arrival in Chicago was 4:30 a. m. The engine was shut off but once on the trip, when a stop was made at Ridgefield for water. The engine that did the trick was No. 795 of the class known as "S 5" and Engineer Shekey is very proud of the record he made with it.

The same engine, but with 23 cars made the run from Minneapolis to Chicago yesterday in thirteen hours, leaving at 3 a. m. and arriving at its destination at 4 p. m.

## Didn't Know Who Was on Trial.

An incident occurred at the courthouse at McMinnville, Tenn., recently that is unique in the criminal annals of the state. William Brown had been on trial for several days, charged with the murder of his wife, and the jury returned a verdict of guilty of murder in the first degree, which means hanging in that state. Just as the judge was about to pronounce sentence one of the jurymen stated that he had passed through the trial under the impression that it was John, the brother of the murdered woman, who was on trial, and not the husband, and that he had viewed the testimony from an entirely different standpoint than he would have done if he had thoroughly understood the case. This development necessitated setting the verdict aside, which the judge did after some rather pointed remarks at the sovereign who had sat through five days of an exciting criminal investigation and had not been able to learn who was on trial.—New York Sun.

## La Prairie

La Prairie, Aug. 15—The violent hail storm that passed over this vicinity last Friday did disastrous work. Some crops of tobacco are ruined, while others are badly damaged. Corn was blown flat and wind mills torn down, stock killed, buildings burned, etc. A second visitation of this kind is not looked for but some prophesy a frost. Mrs. C. B. Woodman will visit her brother in Barron county, this week. A distemper is prevalent among several young horses. The young ladies of our midst carried off their share of prizes at the Caledonian games, and they were not "Scotch lassies" either. The Ladies' Aid society, which was to have met last week, at Mrs. Edwards', will meet, Thursday afternoon at Mrs. Lottie Edwards'. Threshing has commenced and almost everyone is anxious to get through before tobacco harvest commences. The tobacco crop is doing nicely. The prospects point to a good leafy yield. The latest arrival in town is a young son at the home of Mr. and Mrs. George Penn. Miss Alice Clifford was in attendance at the teachers' institute at Janesville last week. The little Mission band will meet next Saturday afternoon at Bessie Townsends. Elder Slater and daughter, "Evangelists," will hold meetings here for a few days. CURRENT  
NEWS AND  
NOTES ON  
THE GAME.

## BALL

THE  
NEW  
ASSOCIATION  
TOPICS

The movement for the organization of an association antagonistic to the National league has been magnified in importance by sensational newspaper stories concerning it sent out of Chicago and other baseball centers. The proposed rival to the league is without clubs, circuit or capital. Every city which its promoters claim for it is under the protection of the national agreement and equipped with a club belonging to the National or Western league, the strongest baseball organizations in existence. The cities to be represented, according to report, are New York, Philadelphia, Washington and Baltimore in the East, St. Louis, Chicago, Detroit and Buffalo in the West.

The probability of a reduction of the National league circuit to eight clubs, the strained relations between Andrew Freedman, the chief owner of the New York club, and the dominant faction in the league, and the operations of St. Louis and Cleveland and Brooklyn and Baltimore clubs by syndicates, prompted the promoters of the new league to agitate its formation. Their idea is to avoid a clash of dates in cities where National league clubs are operated and to engage players from season to season without the right of reservation so as to enlist the support of labor organizations.

The statement has been made that Freedman favors the move and so do Franklin of Buffalo and Van Derbeck of Detroit. McGraw and Robinson have been offered the Baltimore franchise and the new Chicago club is to be controlled by A. C. Anson. Two wealthy Hebrews will, it is alleged, back the Philadelphia club and Mike Scanlon will be at the head of the Washington club. George Schaffer, one of the syndicate which has controlled Athletic park in St. Louis, and Von der Ahe are the only parties named as connected with the movement in St. Louis, but it is claimed that a brewery official and a capitalist are or will be identified with it.

## Tebeau and Catcher Smith.

There has been more or less criticism of Tebeau and his men for taking liberties with Catcher Smith, then of the Brooklyn club and now with Washington. "Broadway Aleck" has a great arm, but he is liable to throw the ball into center field in his efforts to locate second base. With McKean on third and Tebeau on first in the last inning, and two out and a run needed to tie the score, Pat made a break for second while McKean tried to reach the plate. Smith made a perfect throw for a wonder, and as the return was equally good, McKean was caught and the game was over. It was good baseball to take that chance with an erratic thrower like Smith, and the failure of the play should not condemn it. Had the throw been bad, and it was even money that it would be, McKean would have scored and Tebeau taken third, and a hit or error would have won the game. Smith's wildness of aim led to his being exchanged along with First Baseman McGann for McGuire.—Ex.

## Pittsburg's Popular Manager.

A change in the ownership of the Pittsburg club at the close of the season of 1897 led to the retirement of P. J. Donovan from the management of that team and the engagement of W. H. Watkins as his successor. No player of the Pittsburg club was more loyal to his club than the deposed manager, and when Mr. Watkins sev-

P. J. DONOVAN.

ered his connection with that club in May Donovan was again intrusted with the management of the Pirates. He is an intelligent player and an ornament to his profession. He has been the right fielder of the Pittsburg club since 1892.

## Baseball Politics.

The object of the national agreement is set forth in article 2 of that instrument as follows:

"1. To perpetuate baseball as the national game of America and to surround it with such safeguards as to warrant absolute public confidence in its integrity and methods.

"2. To promote and afford protection to such minor professional baseball leagues and associations as may desire to operate under its provisions."

Successive seasons of disaster to the minor leagues show that there is something radically wrong in the sys-

tem or conditions under which they are operated. Not one of the minor circuits arranged for 1899 is intact. The break at Syracuse has been repaired by the energetic president of the Eastern league. The Western league has exchanged Columbus for Grand Rapids with the Interstate league. The Atlantic league has reduced its membership to six clubs, the New York State league and the New England league have had their troubles, and so have the Connecticut State league, the Indiana-Illinois and other minors. The South has scored two failures in the Southern and Texas leagues. Yet those who take upon themselves the task of "perpetuating baseball as the national game of America" make no move to bring about reforms to prevent these annual disasters. Indeed, they are confessedly powerless to improve conditions within their own organizations. Politics so permeate the National league that its capacity for good is affected. The selfish purposes receive more consideration and engross more time than measures for the good of the game.—Sporting Life.

## Chicago's New Pitcher.

Virgil A. Garvin, the new pitcher of the Chicago club, was born on Feb. 1, 1874, at Navasota, Texas, where he learned to play ball. His first professional engagement was with the Sherman (Texas) club in 1895, and the following season he was engaged by the New Haven club, which was managed by Ted Sullivan, who recommended Garvin to the Philadelphia club. He was allowed to go to the Newark club for the rest of the season of 1896. In

## PITCHER GARVIN.

1897 he became a member of the Reading club, with which he remained until his recent purchase by the Chicago club. He has acquitted himself creditably so far and experts regard him as a fixture in fast company. He is a glutton for work. In 1896 he pitched the last three games for the Newark club within two days and won all of them. The first game was played on Saturday and the double-header on Sunday. These three victories gave the Newark club the Atlantic league pennant of 1897 by seven points. Garvin pitched in forty-nine games in 1898 and this year won fourteen out of nineteen games for the Reading club.

## Keep Moving Around.

Pat Flaherty, the ex-manager of the Ottumwa club of the Western association, and Joe Zoellers, the brilliant outfielder of the Alton team, have joined the Crawfordsville club of the Indiana-Illinois league. Flaherty will play second base. Pat has an old head and his up-to-date methods should be of great assistance to his new team. He knows the game and classes high as a captain of a team. Zoellers only needs a chance to show that he is a first-class man. He has played semi-professional ball for several seasons, but refused to accept any of the many offers of professional engagements. He excels as a batter and base runner and is a reliable fielder with a good arm. He is always alert to take an advantage or to turn a trick, and, like Flaherty, his habits are good.

## Diamond Glints.

A number of professionals have organized a strong independent team at Hot Springs, Ark., and are open for dates with the surrounding towns. Among the most prominent are Con Lucid, "Red" Burns, "Fatty" Murray, Dudley Payne, Dillon, "Kid" Hayes, Frank Hill, Moore and several others. The boys are showing up in fine form. It doesn't do for a ball player to suffer an enlargement of the head. An instance of that occurred in Springfield, when Gleason thought he could injure the team by jumping. He couldn't have helped the team more, no matter what he did. Walter Curley is playing as Gleason never can, and Gleason is under suspension.—Worcester Spy.

Manager Wilmot is not going to resign first place in the Western league without a struggle. He has purchased the release of Pitcher Pifford of Philadelphia, and will use him regularly with Hutchinson, Friend and Menefee as soon as the latter has served out his suspension. Parker will probably be held as a utility man, as he is a valuable player in that capacity.

Chicago lost the opening game at Brooklyn in a sensational manner. Chicago had three men on bases two out and one run needed to tie. Two

strikes had been called on Wolverton, when McGuire let the ball get by him. It rolled only about five feet, but Demont tried to run home, and was out by a close shave. Mertes tried to score from second on a bunt in the sixth, and was also caught.

Latham fined Miller \$90, but most of it was put on after he had ordered Dusty out of the game, and it cannot count, writes Ren Mulford, Jr. The Philadelphia scribes in Scores' Roost said that the game was simply handed to their team, and while Latham cannot be too severely censured, the Reds brought much of it on themselves by continued kicking. A few games like it would kill the sport in any city in the country.

Can you believe your neighbors? Read this statement made by a citizen:

Mr. E. T. Fish, of 355 Racine St., proprietor of the Fish Dray Line, says: "When I was twenty years of age I felt injured my back, and ever since that I was troubled more or less with a dull, aching pain across the loins. It never laid me up but it was often painful and annoying. Of late years I have gone to a physician every six months and had myself thoroughly examined under the impression that there might be something wrong with my kidneys. The diagnosis always resulting in the physician claiming these organs were sound, but as the pains existed when I happened to notice in our Janesville papers that Doan's Kidney Pills were guaranteed to cure just such troubles, I procured a box at the Janesville Drug Co.'s store, and took them. Doan's Kidney Pills are a good preparation. My back has not ached since I used them. I have heard others speak very complimentary of them and if I did not know their merit and required such a medicine I would consider it a favor if some one suggested their use to me. For this reason I endorse them."

## LIGHTENS LABOR

Cobwebs about a house are usually the sign that the housewife has more than she can do, the way she goes about it; that all her time and strength are utilized in doing heavy work; that she uses soap in her cleaning. If she would only use

GOLD DUST

Washing Powder

heavy work would be so lightened that the little things needn't be neglected. Gold Dust gives a woman time to rest, time to visit, time to read, and time to sew. It is much better and cheaper than soap for all cleaning. For greatest economy buy our large package.

## Buggy Tastes are Changing

The monotonous style of vehicle of a few years ago does not find place with the up-to-date buyer of today.

The demand for rigs of natty appearance increases each season. This year the swell turnouts combine comfort with style. The open runabout buggy with elliptic springs and rubber tires, or the top buggies with rubber tires, have a tendency to make the person who has no outfit a trifle envious. Handsome Buggies do not cost as much as you think for. Prices are reasonable and the rigs are the best.

## LATE NEWS BY TELEGRAPH.

## RELIEF FOR PORTO RICANS. UP TO PRESIDENT KRUGER. THIRTY STATES FOR BRYAN.

Secretary of War Root Makes an Appeal to the States.

Washington, Aug. 15.—The secretary of war has issued the following appeal to governors of states for aid for the storm sufferers in Porto Rico:

"Sir—I enclose herewith copies of two telegraphic dispatches received from the governor-general of Porto Rico, by which it appears that the devastation wrought by the recent hurricane in that island is even greater than was at first supposed. It is evident that a great multitude of people rendered utterly destitute by this awful calamity must be fed and cared for during a considerable period until they can have the opportunity to produce food for themselves. Enormous quantities of supplies of the kinds indicated by the governor-general must be procured.

"The magnitude of the work to be accomplished leads this department to supplement the appeal already made to the mayors of the principal cities of the country by a more general appeal, and I beg you to ask the people of your state to contribute generously to the relief of the people of Porto Rico. Swift steamers have been provided to leave the port of New York to carry the supplies directly to Porto Rico as rapidly as they can be collected.

"Contributions should be either in supplies of the character indicated or in money, that the supplies can be purchased. The supplies should be sent to Col. F. B. Jones, Army building, foot of Whitehall street, New York city, in packages plainly marked 'Porto Rican Relief,' and he should be consulted as to the time of shipment. Money should be sent to the National Bank of North America, New York city, which has been designated as a depository for the relief fund. Very respectfully,

"ELIHU ROOT,  
Secretary of War."

Three People Assassinated.  
Middlebury, Vt., Aug. 15.—In East Middlebury last night a man named Eastwood went to the home of his mother-in-law and shot her and his wife, killing both. He then drove to Middlebury, went to the residence of Frank Penn, shot him through the heart and wounded Mrs. Penn. Eastwood then went to the residence of his wife's brother, E. D. Brown, evidently intending to kill him, but could not find him. The murder escaped.

Reed's Resignation Certain.  
Washington, Aug. 15.—Nobody in Washington who is in the confidence of Speaker Reed believes that there is any foundation for the report that he is not going to resign his seat in the house. Although he has made no formal announcement of his intentions, and although, for some reason best known to himself, he has delayed sending his resignation to the governor of his state, his retirement is accepted as a fact.

Gov. Tanner Will Run.  
Chicago, Aug. 15.—Gov. John R. Tanner returned to Chicago from his western trip last night, a full-fledged candidate for renomination to the governorship. The governor would not admit that he had decided to be a candidate, but among republican leaders here it was generally understood that from now on Gov. Tanner may be considered as fully in the race.

Yorktown Prisoners All Alive.  
Washington, Aug. 15.—The secretary of the navy received the following from Admiral Watson at Manila: "Escaped Spanish prisoners report Gilmore and thirteen other Americans—eight sailors and five soldiers—confined at Vigon July 27. Four sailors in hospital with sore legs. Gilmore well treated. Supplies sent by admiral never reached."

Mrs. Francis Wallace Dead.  
Springfield, Ill., Aug. 15.—Mrs. Francis J. Wallace, the only remaining sister of Mrs. Abraham Lincoln, and one of the most prominent early settlers of Springfield, died Monday, aged 82 years.

Yellow Fever Under Control.  
Washington, Aug. 15.—Surgeon-General Wyman Monday received the following from the Hampton (Va.) Soldiers' home: "All indications favorable; disinfection going on."

## War or Peace Depends on His Answer to Chamberlain.

## CRISIS HAS BEEN REACHED.

Rejection or Refusal of the Proposed Commission Now the Sole Question—Volkraad Has Ordered Burgers and Colonists to Prepare to Resist Invasion.

London, Aug. 15.—The Transvaal crisis now hinges entirely upon Kruger's reply to Chamberlain's proposed commission. It is expected that Thursday dispatches from Johannesburg will declare the situation is drifting beyond the possibility of negotiations, and that an ultimatum is imperative. The Johannesburg Standard supports this theory. It says the crisis has entered a new phase. Many think the reforms can be obtained only by a firm, straight demand. The Standard inclines to the belief that the Boers will not back down, but will fight. The opinion in London does not accept this, but rather expects an all-around easing of the situation during the vacation, although the reasons for expecting such developments are not apparent.

## SAY KRUGER HAS ACCEPTED TERMS.

Will Join Great Britain in Inquiry Into Outlanders' Grievances.

London, Aug. 15.—A dispatch to the Times from Pretoria says that telegraphic communication between President Kruger and the authorities at Bloemfontein on Sunday is expected to result in a peaceful solution of the Transvaal question. It is understood that the Orange Free States advises the Transvaal to agree to a conference or accept the proposals of Sir Alfred Milner, the British high commissioner in South Africa.

A dispatch to the Central News from Johannesburg says that President Kruger has notified Great Britain of his acceptance of the invitation to take part in a joint inquiry regarding the grievances of the outlanders, providing that the independence of the republic is not impugned.

The Birmingham Post says that the government of the United States and the British government have agreed that the interests of American citizens in the Transvaal shall be looked after by the British government, in the event of hostilities between the British and the Boers.

## Colonists Must Bear Arms.

Cape Town, Aug. 15.—A dispatch from Pietermaritzburg, capital of Natal, says that at a farmers' meeting called there to consider the defense of the colony it was resolved that the duty of every loyal, able-bodied colonist able to rise and shoot was to aid in the defense of the colony against invasion, and it was announced that the volunteers would be sent to the frontier in the event of war and that the rifle associations would be left to defend their own districts.

## All Residents to Take Up Arms.

Pretoria, Aug. 15.—The volkraad has amended the growwet (constitution of the South African Republic), compelling persons who are not burghers to co-operate with them in the defense of the national territory and the suppression of rebellion.

## Glory Belongs to Dewey.

Plattsburg, N. Y., Aug. 15.—A committee from New York has arrived here to invite President McKinley and Vice President Hobart to attend the reception to Admiral Dewey in New York. President McKinley will decline the invitation on the ground of pressure of public business. His real reason will be the conviction that his presence at the ceremonies would be likely, by a division of public honors, to detract from the glory which rightfully belongs to the victorious admiral.

## Steel Trust Files Its Papers.

Springfield, Ill., Aug. 15.—The Republic Iron and Steel company, which was recently incorporated in the state of New Jersey for \$55,000,000, was on Monday licensed to do business in the state of Illinois, the capitalization in this state being \$1,750,000. The incorporation in this state represents the company's holdings in Illinois, which consist of several iron and steel mills, including the plant at Springfield.

## Dewey Home Fund Is Growing.

Washington, Aug. 15.—The contributions to the Dewey home so far amount to \$18,550. Encouraging reports are arriving at the department from several large cities where popular subscriptions have been opened, and it is expected that the fund will be materially increased before the admiral's arrival.

## Campos Gains Strength.

Madrid, Aug. 15.—Gen. Martinez Campos is gaining strength daily as an opponent of Premier Silveira. After Gen. Campos the duke of Tetuan is the last hope of the dynasty. The populace is in a continual ferment and it taxes the ingenuity of the government to keep revolutionary activities in check.

## Steals Mobilization Plans.

Vienna, Aug. 15.—August Hosetig, a government railroad official, has been arrested for stealing the emergency mobilization plans, which he delivered to a man named P. Zibowski, who is said to have communicated them to agents of France and Russia.

## Democratic Leaders Indicate the Political Situation.

New York, Aug. 15.—The Journal telegraphed the following to the democratic leaders in every state this query:

"Will your state send a Bryan, anti-Bryan or Bryan and silver delegation to the national convention in 1900?" Thirty-eight replies were received. Thirty were unequivocally for Bryan, seven were in doubt but leaned toward Bryan and one named Bryan as second choice.

In the Bryan column are these states: New York, Rhode Island, New Hampshire, Maine, Ohio, Michigan, Mississippi, Montana, Nebraska, Louisiana, Alabama, Arizona, South Dakota, Minnesota, Iowa, Virginia, Wyoming, Nevada, Florida, Delaware, Kentucky, Missouri, Indiana, Kansas, Arkansas, South Carolina, Tennessee, Georgia and Texas.

The states in doubt, but leaning toward Bryan: Connecticut, Maryland, New Jersey, Vermont, Wisconsin, Illinois and Oregon.

Pennsylvania has a favorite son, ex-Gov. Robert E. Pattison. He comes first, then Bryan.

## Big Convention at Detroit.

Detroit, Mich., Aug. 15.—The largest convention the International Typographical union has ever held was called to order in Strassburg's hall in this city Monday morning. There were 188 delegates in their seats and twice as many ex-delegates and visitors.

There is a strong lobby present in the interest of the machinists, and it is probable that the principal fight in the convention will be on a proposition to recognize the machinists as an independent organization.

The organization is in a better position numerically and financially than at any period within the last ten years.

## Yellow Fever in Mexico.

Austin, Texas, Aug. 15.—The state health department is advised that yellow fever at Cordova and Orizaba, Mexico, is spreading and increasing in virulence. The daily number of deaths and new cases is very large, and there is no prospect of any improvement in the situation until the disease has exhausted itself. Reports from Vera Cruz show a decrease in the number of deaths and new cases.

## Tornado at Redfield, Ark.

Dallas, Texas, Aug. 15.—It is reported here that a tornado struck Redfield, Ark., Sunday night. Two churches were destroyed and a number of houses totally demolished. It is also said there was loss of life, but this lacks confirmation. The telegraph wires are down to Redfield.

## New Caledonia's Defenses.

Washington, Aug. 15.—The French government is about to expend several million francs on the coast defenses of New Caledonia, according to a report to the state department from our commercial agent there, Mr. Wolff. The work has already commenced.

Very choice eating and cooking apples, 30 to 35 cents per peck. Sanborn.

## COOLING DRINKS.

## Piazza Refreshment With Several Agreeable Concoctions.

One of the special contributions to comfort in the unbearable heat of many of our summer days lies in cooling and refreshing beverages of which every housewife or daughter of the house should be able to concoct at least a few tempting kinds. The Household presents the following recipes as a help when a hostess wishes to offer something to quench the thirst of family and friends when they are enjoying themselves, for instance, in the evenings on the piazzas.

Egg lemonade is a favorite drink with most people. To make it take one pint of water and dissolve in it half a pound of granulated sugar, add the juice of four large lemons and a cupful of cracked ice. Have ready the yolks and whites of four fresh eggs beaten separately, the whites until stiff and dry. Stir in the yolks with the lemonade and lastly the whites. Add more sugar if necessary and serve in lemonade glasses.

Gingerade is one of the most wholesome of cooling drinks for the warm weather, and it may be kept on hand ready for use whenever needed if bottled and put aside in a cool place. Dissolve three pounds of granulated sugar in two gallons of water. Then add the well beaten whites of three eggs and two ounces of ground ginger, moistening it with a little water before adding it. Place the whole over the fire in a porcelain kettle, bringing slowly to the boiling point, skim and stand aside to settle. When cold, add the juice of one large lemon and a quarter of a yeast cake dissolved in two tablespoonfuls of warm water. Mix thoroughly and strain. Fill bottles, cork tightly and tie the corks. Stand them in a cool place, and it will be ready to use in two days.

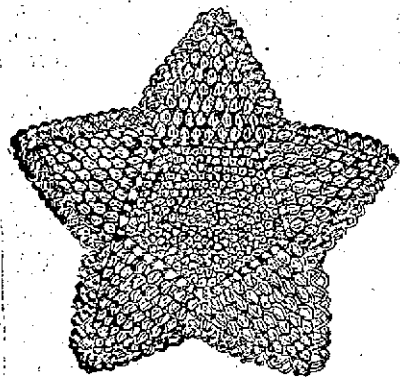

Iced chocolate is delicious when well made. Shave two ounces of Baker's chocolate and melt in a saucepan over the tea kettle. Add to this gradually one pint of hot milk, stirring constantly, three tablespoonfuls of sugar and one tablespoonful of cornstarch dissolved in a little cold milk. When cold, add a half pint of thick cream, whipped stiff, and one teaspoonful of vanilla. Set in the ice chest and serve in chocolate cups.

To make pineapple shrub pare a large ripe pineapple, chop it fine, add one pound of sugar and one gallon of water, stir well and pour into a jug. Let it stand in a warm place until it begins to ferment.

A lemonade made by boiling is much more delicious than the usual way. Take the juice of three lemons, five tablespoonfuls of sugar and one cupful of boiling water. Add the water to the lemons and sugar and set aside to cool. When ready to serve, put in lemonade glasses with cracked ice and dilute with water.

## Crocheted Star Mat.

Materials.—Blue and white split zephyr, one skein each, and single white zephyr for the center. Begin in the center with a ch of 6 sts joined to form a ring. Into the ring make 10

A STAR MAT.

half double (made by throwing thread over the hook, taking up a st in the ring, then drawing thread through 3 sts on the hook). Next row, make a h d in the first st, 2 in the next, and repeat around, widening 5 times. Work round and round in h d's, widening in the same places each time, and if the work does not lie flat make 3 sts at each widening. Have the center 10 rows deep. Make a row of d c's, in every other h d and with 1 st between, at the corners making 3 sts between.

The remainder of the mat is made of the white split zephyr and is composed of 5 points, each made separately, thus: Fasten thread at one corner, and in each ch make a knot by throwing thread over the hook and taking up a st 4 times, then fastening with a s c. The first row has 9 knots, the next 8, etc., turning and making 3 ch at end of each row.

Make 4 more points and work round all the points with the blue by making 5 ch, then fastening in every 3 ch. Make two more rows, fastening 3 ch in a ch beneath. These mats can be made any size desired and may have 6 or 8 points by starting with the required number of widenings, concludes The Designer in giving the illustration and instructions for a crocheted mat.

## Toilet Hints.

Carrots are advised to be freely eaten in summer time, as they are thought to be a remedy for freckles.

Watermelon juice is said to be not only very soothing and agreeable to the skin, but a complexion beautifier and complete remover of freckles.

Cleanliness of the skin has a great effect on the general health, and it is well known that if one has been exposed to infection the best thing to do by way of precaution is to take a hot bath immediately.

For gray hair an English writer advises to wash the head with claret and take iron and Burgundy as a tonic.

A lotion which is designed to keep the complexion clear and free from spots is made by mixing two drams of tincture of benzoin with one pint of rosewater.

## "How Would You Like to be the Ice Man?"

A comfortable feeling as you think of the ice man, but if you followed him up all day you would change your idea before night. The ice man would as soon take a vacation or a day off picnicking as the rest of us. Perhaps he is better entitled to it, because the ice man's life is not a happy one these hot days. But whether the ice man or yourself, if you do take a day or two off you don't want to forget the eatable end of the pleasure time. Well filled lunch baskets with well selected articles such as are found on our shelves make half the fun of camping.
